PROF. SAMUELS OPTICIAN!

HAS RETURNED.

He is stopping at the

OCCIDENTAL HOTEL

Professor Samuels offers to those that are suffering from weakness and defective sight his improved crystal-glass spectacles, superior to any other in use. They are constructed in accordance with the philosophy of nature, adapted to the organs of sight and perfectly natural to the eye. The advantages of these spectles are—

First—That they can be worn with perfect ease for any length of time at one sitting, giving astoniahing clearness of vision by candle or other artificial light, and comfort to the spectacle wearer hitherto un-2,500

fort to the spectacle wearer hitherto unknown.

Second—It requires professional guidance even when a good article is offered. Prof. Samuels not only has the best glasses that can be found, but carefully examines the eyes of the patient and gives indispensible advice as to the proper selection of them.

Third—these glasses are scientifically adjusted to every case of defective sight with unerring accuracy, whether arising from age or strain, or premature decay, by Prof. Samuels, on a new and exact principle entirely his own.

Prof. Samuels, to signalize himself from the bost of pretenders in his profession will submit for inspection copies of testimonials of the most unquestionable respectability and talent of America, also a number of letters from well known people who have used his glasses.

used his glasses.

The use of any of the following names of certificates without an actual possession of the same would be forgery, an offense pun ishable by imprisonment in the state's prisonment in the state.

on.
OFFICE OF BOARD OF U. S. EXAMINING SURGEONS, WICHITA, Jan. 19, 1884.
Prof. Samuels:
DEAR SIR—I cheerfully add my name to the many who have testified to the worth of your glasses. The pair I obtained from you give me great Satisfaction. With the glasses that I have already used, I have not been able to read more than half an hour at a time without weariness to my eyes. Now I can read continuously without pain or bluring of vision.

OFFICE OF BOARD OF U. S. EXAMINING SURGEONS, WICHITA, KANSAS.

To those who are afflicted with imperfect vision, I cheerfully recommend Professor H. Samuels as a competent optician, and he comes highly recommended by some of the H. Samuels as a commended by comes highly recommended by ablest physicians in the west.

A. H. Fabrique, M. D.

WICHITA, January 20, 1884. Prof. Samuela:
DEAR SIR—Those eye-glasses that I purchased from you are giving entire satisfaction. I can read longer and easier with them than any I have ever used. They seem to rest my eyes, and it is a pleasure to wear them. I have not used the long enough to know what the final result will be, but thus far my sight seems to improve with their use. Very respectfully, E. B. ALLEN, M. D.

WICHITA, January 19, 1884. Prof. Samuels.
SIR-I am not aware that My public te SIR—I am not aware that My public tes-timony in layor of your method of fitting glasses to the eyes can be of any service to you, but give it for the benefit of any one suffering from serious difficulty in getting glasses to fit the eyes. Give Prof. Samuels a trial and you will come away satisfied. I would not take any price for my glasses if I could not get another pair.

A. J. LONGSDORF, M. D.

WICHITA, January 21, 1884.

To Whom it May Concern:
I heartily endorse Prof. Samuels as an optician—a master in mechanical aids to sight. His ability is unquestioned, and I recommend any who have defective vision, with whom my professional influence bears weight to give him a trial.

C. C. FURLEY, M. D.

WICHITA, January 21, 1884. Prof. Samuels:

DEAR SIR—Being among the first to avail myself of your professional services in this city, and now having tested your crystal glasses, which you fitted upon me, I feel tal glasses, which you fitted upon me, I feel a sense of duty as well as a pleasure in saying that they have proven thoroughly satisfactory, enabling me to read with the greatest case and without wearying my eyes. I take great pleasure in commending you to all who require artificial assistance, believing your glasses to be the best in use.

I remain yours respectfully.

H. H. OWENS, M. D.

From Professor Snow.

LAWRENCE, August 10, 1883.

It gives me pleasure to certify to the great benefits received by my son and daughter, aged respectively twelve and ten years, by the use of Prof. H. Samuels' glasses. Both of them had suffered from defective sight, so that they had been compelled to abandon school for more than a year. Other eminent authorities had prescribed for them without succes, but Prof. Samuels' spectacles gave them immediate and permanent relief. My son is now able to do entirely without glasses, his eyes having been restored to their natural condition by the timely and skillful application of artificial aid.

Professor of Natural History, University

Wichita, September 22, 1884.

Prof. Samuels, the optician, having returned to this city, I take pleasure in recommending him as an expert a his specialty.

E. B. RENTZ, M. D.

A Remar able Cure. The following is taken from an interview by the Topeka Commonwealth of October 5th, 1883: "When W. Edson, of the firm of Beck & Edson, of Tepeka, was sixteen years old he had the measles very bad. They left him with the sight of his right eye so seriously affected that he has not been able to see out of that organ until about seven months ego, when Prof. Samuela, the noted optician. furnished him a pair of glasses that filled the bill completely, and enabled him to see just as well out of his heretofore blind eye as he can out of the good one. Mr. Edson himself never thought that such a thing could be done, because before meeting Prof. Samuels he had tried all t. a different kinds of glasses made, but could not get anything that gave him any sort of relief. Such a wonderful cure as this is certainly something remarkable, for Mr. Edson had the use of but one eye, and had the other been equally affected he would not have been able to see at all. Doubtless a great many people who are groping through life in our bilind asylums are affected just as Mr. Edson was, when, did they know it, they could easily be made to see, if Prof. Samuels could eas bold of them. The following is taken from an interview

Samuels could get hold of them. CONSULTATION FREE. Office Hours from 9 a. m. to 7 p. m. N. B.—Owing to engagements elsewhere,
